

Performance Testing Template

Date	5 July 2026
Team ID	Batch 2023-27
Project Name	Rising Waters – ML-Based Flood Prediction System
Maximum Marks	3 Marks

ML Model Performance Testing

S.No	Algorithm	Train Acc	Test Acc	Precision	Recall	F1-Score	Deployed
1	Decision Tree	82.40%	78.17%	0.78	0.78	0.78	No
2	K-Nearest Neighbours	85.50%	80.67%	0.81	0.81	0.80	No
3	Random Forest	88.00%	82.00%	0.82	0.82	0.82	No
4	Random Forest	99.20%	95.65%	0.97	0.97	0.96	Yes

Web Application Testing — Test Cases

TC ID	Test Case	Input	Expected Output	Result
TC-01	High-risk flood scenario	annual_rainfall=3500, humidity=92	Flood Chance page	PASS
TC-02	Low-risk safe scenario	annual_rainfall=800, humidity=52	No Flood page	PASS
TC-03	Empty form submission	All fields blank	Validation error displayed	PASS

TC ID	Test Case	Input	Expected Output	Result
TC-04	Negative input value	river_level = -5	Validation error displayed	PASS
TC-05	Prediction history logging	3 predictions submitted	3 rows in history table	PASS
TC-06	About page architecture	Navigate to /about	Architecture diagram shown	PASS
TC-07	Mobile responsiveness	Open on 375px mobile viewport	Responsive layout correct	PASS
